<b>OBJECTIVE OF THE SESSION (WHAT DID WE WANT TO ACHIEVE)</b>	
(1) Test out good practices; (2) Train adult trainers	
<b>METHODS USED (ILLUSTRATE WITH IMAGES WHEN POSSIBLE)</b>	
Tat good practice; Who are you until now good practice; C2C good practice.	
<b>REACTIONS - OBSERVATIONS – EVALUATIONS: WHAT ADVANTAGES AND RISKS OF THE METHOD HAVE WE FOUND?</b>	
The Tat good practice had been tested out on the first day of the biggest media education conference in Poland – in the plenary meeting room during a panel session – 80 participants. As well as the C2C light version. The effects were a calm discussion on the three sentences with a lot of light humor inside – a rare sight in Polish academic circles.  The Who are you and C2C good practice did not produce any surprising results.  The participants present declared they would use the good practices in their work.
